MATERIALS & FINISHES

DUNBAR selects the finest materials available from around the world. Many of these materials come from natural sources and may vary in their appearance. Finish samples and printed material should be used for reference only, as they do not represent exact matches—All samples represent standards for an acceptable range established by DUNBAR.

WOOD

Solid wood and veneers are selected from the best possible sources across the world. DUNBAR makes every effort to balance variations in color, grains and patterns that naturally occur. The following samples outline the wood species and the respective finish colors offered by DUNBAR:

#300 Redwood

#400 American
Walnut

#500 Ebony

WOOD SPECIES ~
Walnut

#100 Maple

#200 Cherry

#300 Redwood

WOOD SPECIES ~
MAPLE

#400 American
Walnut

#500 Ebony

METAL

The metal work on DUNBAR designs serves a combination of structural purpose and visual appeal. The standard metal finishes include the following:

Brushed Aluminum

Matte Brass

Antiqued Brass

Gunmetal

Brushed Aluminum—Legs and leg detail parts are machined from solid stock and then sprayed with lacquer.

Matte Brass—Legs are turned from solid stock, while detail parts are cast. All parts are sprayed with lacquer.

Antiqued Brass—Matte brass parts are exposed to a solution that accelerates the natural oxidation of the metal. The part is then lightly rubbed with steel wool and sprayed with lacquer.

Gunmetal—Matte Brass parts are exposed to a solution that accelerates the natural oxidation of the metal and then sprayed with lacquer.
